

CONOR MCKEEVER

SOFTWARE ENGINEER 📍 MANCHESTER ☎ +447500948539 @ CMCKEEVER829@GMAIL.COM

👤 PROFILE

Software engineer with over 6 years of programming experience, looking to leverage my expertise in a software development role. Growing up in Ireland and relocating to mainland UK has enabled me to work with a diverse range of people, enhancing my team collaboration skills. I am proficient in the entire software development cycle, from conception to release, and am constantly seeking opportunities to challenge myself and demonstrate my capabilities.

📁 EMPLOYMENT HISTORY

Software Engineer at OpenText, Manchester, England (Pillr bought by OT)

May 2024 - Present

- Contributed to integrating APIs with OpenText, implementing new standards, and optimizing our platform with OT infrastructure, focusing on backend and authentication methods.
- Enhanced portal design and UX by updating the frontend with Vue.js and TypeScript, leading the initiative to standardize for improved consistency.

Software Engineer at Pillr, Manchester, England

January 2022 — May 2024

- Played a critical role in the development and launch of our 'Pillr' cybersecurity platform, leading to it being bought by OpenText in May 2024. Heavily involved in both the backend and frontend development of the platform, using Golang and Python, combined with Postgres and Elasticsearch capabilities for the backend.
- Contributed significantly to the frontend development using Vue and TypeScript, now serving as one of the lead advisors for frontend design and implementation strategies.
- Directly developed numerous integrations with platforms such as Google, AWS, and Microsoft, primarily in Golang, involving extensive API usage and managing large datasets from Elasticsearch.
- Had a fundamental role in securing new customers for our platform by being trusted to fly out to Germany and singlehandedly integrate AWS EventBridge in a short time frame.

Automation Engineer at Pronto Automation Systems Ltd., Newry, Ireland

March 2020 — December 2021

- Installed and controlled UI systems for remote automation of water treatment projects in NI and the UK.
- Managed projects from inception to completion, collaborating with companies like Siemens and Mitsubishi.
- Additional Role as Lead Compliance Manager for ISO27001 compliance using Microsoft Solutions.

Teaching Assistant at Queen's University, Belfast, Ireland

September 2019 — April 2021

- Guided and evaluated over 100 students in programming languages and principles.
- Aided in boosting their confidence and efficiency.

Placement Software Engineer at Etain Ltd. (Now part of First Derivatives) Belfast, Ireland

May 2018 — September 2019

- Worked on web apps, handling front-end, back-end, and UX for clients like ASDA and Sainsbury's.

◦ SKILLS ◦

Golang
Vue.js
JavaScript\Typescript
Python
HTML & CSS
SQL (Postgres)
Kubernetes/Docker
Elkstack (Elasticsearch,Kibana)
Kafka
Git

◦ QUALIFICATIONS ◦

Masters Degree in Software Engineering from Queens University Belfast
Microsoft Azure Certifications
Full UK Driving License.
A-Levels (Maths, Physics, ICT, Engineering)

◦ HOBBIES ◦

Digital Artwork, Animation, Game Design, Gaming, Reading, Fishing, Distance Running, Music
